Will Your New Dress Be Of Serge or Silk?

Either One Is Strictly Up to the Minute in Style. And if You

Purchase Here Today You Can Secure Splendid

Qualities in the Smartest Styles

At \$16.95 and \$19.75

Youthful styles, that, as one authority on fashions has said, daughter, mother and even grandmother may wear with equal propriety.

Pleated or straight-line styles, with belts or winding graceful sashes.

On some there are touches of Oriental or Far Eastern embroidery, and the majority have the new deep or round collars, some of broadcloth, some of crepe, some of silk.

The influence of the Middle Ages is entering in at the door of the present day fashion, and these Moyen Age models are some of the first arrivals.

All sizes for small, medium and large women.

Kann's—Second Floor.

FIRM SEEKS INCORPORATION.

John & Hughes to Manufacture Musical Instruments.

Application for articles of incorporation was made yesterday by John & Hughes, Inc. In the certificate of incorporation the trustees are named as John C. Hughes, president; John C. Hughes, secretary; and John C. Hughes, treasurer. The capital stock is declared to be

\$10,000, divided into shares of \$100 each. The intention of the company is to pursue "the manufacture and sale of musical instruments of every description, particularly talking machines and records," at 1221 F street northwest.

A new telephone transmitter attachment so regulates the vibrations of the diaphragm that the voice sounds distinctly whether its user is close to or some distance from the instrument.

PEOPLE'S DEPARTMENT STORE

JOSEPH GOLDBERG, Proprietor

PAPER SHORTAGE REACHES CRISIS

Publishers Agree that Conservation Is Necessary.

Special to The Washington Herald. New York, Oct. 18.—White paper is becoming more and more a scarce commodity. The shortage noted early in the year has increased rather than diminished, as hoped.

It has reached the point where newspapers will be forced to curtail large issues or demand an increase in rates for daily sales that will not meet with popular approval. Smaller newspapers are due. This is the best and only answer for the situation, which the newspaper reading public faces.

The situation has become so serious that a dozen different remedies have been advocated and adopted recently. Cutting down the size of the paper or the advertising is only one of these. Raising the price of the newspaper and watching to detect the smallest waste of space are other devices adopted.

A. Gordon McIntyre, a retired official of the Canadian Pulp and Paper Association and an authority in the paper trade, has been chosen by the American Newspaper Publishers' Association to start a new department. He will confer with the publishers and act as their representative in negotiations with the paper manufacturers. To some of those in the newspaper publishers' ranks it looks as though the country dailies and weeklies, which cannot or will not contract for their print paper in quantity, will be forced to suspend.

Wood Pulp Imports Decrease.

A significant fact is that the imports of wood pulp, used in making white paper, have dropped in the last year, despite the fact that there is a normal increase of six per cent in consumption every year.

In 1914 the imports amounted to 508,380 tons. The next year 80,000 more tons were brought in. This year the tonnage was 1,000 less than in 1914 and 81,000 less than in 1915. These figures were for the year ended June 30.

Not only on the other side were trade conditions upset, but also here. As the result of increased wages in Canada and other industrial factors the mechanical pulp that used to come over the border in great quantities now dribbles through. A dispatch from Toronto contained an intimation that an embargo on exports of news print might be ordered if the price in the domestic market were found to be excessive. On the other side of the border as in this country, the cry has been raised that the manufacturers have been holding up the consumers, but here at least investigation has shown that there is a real shortage.

Publishers Facing a Crisis.

It is estimated that 1,900,000 tons of news print will have been used in this country by December of this year. The normal increase of six per cent a year would bring the 1916 consumption to more than 2,000,000 tons, which calls for an additional daily production of from 600 to 800 tons. But experts interested in the newspapers' side of the situation can only see 100 tons daily increase in 1916 over 1915. That brings the publisher face to face with the question of curtailing his consumption, pruning space in his paper and dropping a few pages.

The duration of the war enters into the problem, of course. If hostilities cease within a year, exports from Scandinavian countries may be resumed in volume and the pressure upon the publishers relieved. If the war keeps up and the foreign supply of

MEAT CAUSE OF KIDNEY TROUBLE

Take a Glass of Salts if Your Back Hurts or Bladder Bothers. Meat Forms Uric Acid.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority, who tells us that meat forms uric acid, which always paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken; then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness; your stomach bours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste, get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so they no longer irritate, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure, and makes a delightful effervescent lithia water drink.—Adv.

NOT TO PUBLISH NOTE UNTIL AFTER ELECTION

Bernstorff Memorandum Not Officially Accepted, Lansing Declares.

The memorandum from Ambassador Bernstorff to Secretary Lansing providing for a settlement of the Lusitania case will not be made public until after election.

Publication yesterday of the terms of the note and of the mutual concessions made by the German and American governments created a profound impression in Washington.

A diplomatic denial that the note had been accepted by the United States government was made by the administration. The word "acceptance" is understood to be practically synonymous with publication, and technically there would be no complete acceptance until the note had been made public.

Ambassador Bernstorff and Acting Secretary of State Polk both declined to discuss the note. The Acting Secretary had a long distance telephone talk on the subject with President Wilson's offices at Asbury Park. He made this statement:

"The note has not been accepted, and no statements are to be given out. The State Department is not going to be drawn into a discussion of this case at this time. I am not going to discuss it at all, in any shape or form."

Another high authority at the State Department said this: "This is not a moment to discuss a question of this importance."

Political Notes

New York, Oct. 18.—Returning from Chicago, where he had conferences with national committee men, and with the Democratic National Committee, today voiced glowing optimism as to the outlook for the November election.

"The Western pendulum is swinging in favor of Wilson," he said. The reports I received while in Chicago are almost too good to be true. The Republican campaign has collapsed in many States and is on the verge of collapse in many others. The Wilson sentiment is growing among all classes of voters, everywhere.

"The situation in Michigan is truly wonderful. Detroit, with a normal Republican majority of 20,000, will be carried by Wilson by between 15,000 and 20,000."

"Wisconsin, Nebraska, Illinois are for Wilson. Indiana and Kansas are safely Democratic. In North Dakota and Kansas the leaders are confident that Wilson will sweep these two States."

"In Illinois the balance is held by 1,800,000 women qualified to vote. They are two to one for Wilson."

Shadow Lawn, Long Branch, N. J., Oct. 18.—William G. Sharp, United States Ambassador to France, held a conference with President Wilson today on the subject of the President's mail protest, before the President's departure for Chicago.

New York, Oct. 18.—The Filipino legislature has made prompt response to President Wilson's message of congratulations. On Monday, when it assembled for its last session under the act passed at the last session of Congress, Mr. Wilson cabled his congratulations, and said: "I look forward with confidence to the growth of self-government in the Philippines under this new and happier order of things."

The prompt answer comes in press dispatches today from Manila reporting that the first bill proposed in the new legislature seeks to repeal the flag law, which prohibits the use of the Kalipunan flag and other revolutionary emblems and the second bill proposes the formation of a Philippine army.

New York, Oct. 18.—Joseph Tumulty, secretary to President Wilson, dropped his hat at the Democratic National Headquarters after completing arrangements for the departure today of President Wilson for Chicago. He was only there a few minutes, but in the language of the publicity department, left a "streak of optimism" and "lighted up the West End street" and reached across the continent."

Mr. Tumulty said everything is "fine, never better, and everything is going well."

New York, Oct. 18.—Charles Evans Hughes is not taking a rest when he returns to this city, on Friday, from his third tour. The campaign managers view the situation in this State so seriously that they want him to make speeches on Saturday night, and are communicating with him to get his permission to make engagements for him. The Republican nominee probably will speak the first three days of next week in this State and then go into Indiana and Ohio for the last half of the week.

M. D. Abernethy, of the Gastonia (N. C.) Gazette, proudly informs the Democratic National Committee that he has become the father of Woodrow and Wilson, twin boys, whose combined weight is sixteen pounds, which he seems to think indicates certain victory next month for President Wilson.

Woodbury, N. J., Oct. 18.—A direct order was issued today to the men employed in the du Pont powder plants in this section that no Wilson buttons would be allowed in the work. Some of the men who have been wearing the buttons, having declared themselves for the President, refused to obey the order, and they fear that discharge will follow. Some of them assert that the order includes the wearing of Hughes buttons, but there is no confirmation of this.

The du Pont plants at Carney's Point, Penn's Grove and Gibbstown, just below this city, employ something like 15,000 men. It is said that the order against Wilson buttons came direct from the company headquarters in Wilmington.

HORSES THOUGHT POISONED.

Tentonic Agents Blamed for Wholesale Deaths on Italian Ships.

Rome, Oct. 18.—Thirty horse tenders, some of whom were reported to be Americans, were arrested when the Italian steamer Taormina arrived at Genoa from the United States and it was found that nearly all the American horses she carried had died en route. Corrosive publicity was found by the ship's officers and it is suspected that the horses were poisoned at the instigation of Tentonic agents.

MAJ. KUTZ TO LECTURE.

Will Address Capital Traction Employees Tonight.

Commissioner Kutz will give an illustrated lecture tonight before a meeting of the Capital Traction Company, Section No. 8, American Electric Railway Association. The meeting will be held in the assembly hall of the building at Thirty-sixth and M streets northwest.

The Commissioner will take as his subject, "Some Phases of the Engineering Work of the District."

BRITISH MAY SEND NEW NOTE ON U-BOAT WAR

London, Oct. 18.—In view of the attitude adopted by Washington, belief was expressed in official circles today that England may address a note to the American government relative to the recent U-boat raid in American waters.

If a note is sent, however, it is expected to be a request for information rather than a protest.

Despite the utterances of foreign Minister Viscount Grey in Parliament yesterday relative to the German raid, cablegrams from the United States today indicate that the American government considers the incident closed.

In consequence of the present attitude of the American government, England, it is believed, will follow a program different from that outlined by the foreign secretary when he said no action would be taken until the United States took a definite stand.

REV. FRANCIS HICKOK DIES.

Father of Washington Pastor to Be Buried Here Today.

Rev. Francis M. Hickok, D. D., father of Rev. Paul R. Hickok, pastor of Metropolitan Presbyterian Church, of this city, died on Monday at his home in Philadelphia, Pa.

Funeral services were conducted yesterday in Philadelphia by Rev. J. R. Swain, D. D., and Rev. William S. Holt, D. D. Interment will be at Arlington, Va., today. Rev. Alfred E. Barnard, D. D., pastor of Eastern Church, officiating.

The Same Face Under a New Skin

What is appreciated more than a healthy skin, especially after a siege of face blotches, pimples and other skin trouble? Mr. Peterson of San Francisco relates his experience briefly and happily:

July 26, 1916. Gentlemen—I have used four bottles of your S. S. S. for bad blood and blotches on the face, and wish to state the blotches have disappeared and I feel much better.

Yours truly,
F. A. PETERSON
25 College Terrace,
San Francisco, Cal.

Mr. Petersen made a practical move when he used S. S. S. for his troubles, for only in S. S. S. could he find purely vegetable roots and herbs properly blended and containing just those qualities his blood so badly needed to assist it in driving out the impurities and rebuilding its vitality. As these facts apply to Mr. Petersen they apply to anybody who is afflicted with blood disorders.

You won't find S. S. S. a "cure-for-all" medicine. It has a distinct mission to perform as a blood purifier and tonic. It assists Nature in bringing healthy conditions out of disordered blood, which if not corrected may take the form of Rheumatism, Catarrh, Malaria, Eczema, Scrofula, or one of the many kinds of skin diseases. The fifty years successful record of S. S. S. stands as a monument to its merit.

You may be in doubt just what your trouble is, in which case you are offered the service of our blood specialist. Consult him fully and you will be properly directed as to treatment, without charge. But beware of minerals.

Get S. S. S. at any drug store. Demand the genuine. It is purely vegetable. \$1,000.00 is offered for proof that S. S. S. contains any minerals.

Swift's Specific Co., 150 Swift Bldg., Atlanta, Ga.—Adv.

WOMEN'S WILSON UNION ARRANGE "LABOR NIGHT"

The attitude of labor and of the administration to the Adamson bill and other labor legislation probably will be defined at the "labor night" to be observed by the Women's Wilson Union, Fifteenth and F streets northwest, tonight.

Assistant Secretary of Labor Louis F. Post will give the views of his department, and the following officials of the American Federation of Labor will explain labor's position: John B. Lemon, treasurer; John P. Valentine, fourth vice president, and Frank Morrison, secretary.

Mrs. Wesley Martin Stoner, chairman of the executive board of the Women's Wilson Union, and a prominent organizer of Wilson campaign leagues, will preside.

HEAR HUGHES DENOUNCED.

Government Clerks Listen to Speaker for Women's Wilson Union.

Candidate Hughes was denounced by Harry M. Martin, a resident of Aspen, Md., before a crowd of several hundred persons in front of the headquarters of the Women's Wilson Union, Fifteenth and F streets, yesterday at noon for refusal definitely to announce his course in world politics and for not telling what he would have done at the time of the various crises in our foreign relations.

Mr. Martin spoke for more than an hour, during which time a thousand persons heard him, most of the listeners being government employees.
